Subject: Updated Analytical Data Tables - Alfred Heller

Hi Ed,

All the tables have been reviewed, formatted, and updated for this sampling event. However, Table 6 (TPH), Table 9 (Indoor-Ambient Air VOC) and Table 10 (Sub Slab Soil Gas VOC) require more clarification with OSC for reporting and comparing results with screening levels/ criteria/ standards.

The tables have been saved on the share drive @ [\\Fsed203\share\Alfred](#) Heller Heat Treating\July 2011\Revised Validated Data Tables for OSC_working files_July 2011

For your quick review, I will include hard copies of all the updated tables in the binder you gave me for this project.

Please let me know if you have any questions.
